Evolution

A special series of three football tables, the Evolution line by Garlando has a tasteful aluminium and black combination creating a hi-tech and glamorous effect.

## F-200 Evolution

Heavy duty 20mm thick MDF cabinet with melamine coating. Colour: black with silver edges and logo.

9 x 9cm square MDF legs (15mm thick) coated with melamine in silver effect.

2mm thick high stress resistance steel going-through bars coated with anti-rust chromium-plating.

On request 2mm thick telescopic safety bars to ensure the greatest safety.

Steel roller bearings to greatly improve the game speed, while reducing the stress for the players' wrists.

Red and blue players in unbreakable plastic moulded onto the bars.

Fully rotating (360 degrees) or non-rotating goalkeeper (180 degrees) on choice.

Playing field in choice of tempered transparent glossy glass, non-reflective sanded glass or plastic laminate. Green background with white lines to look like a football ground.

Easy and immediate ball retrieval through a basket in grey colour behind each goal.

10 white Standard balls supplied.

F-200 Evolution complies with the European harmonized safety rules EN 71-1, 71-2, 71-3 and 71-9.

3 years warranty against manufacture defects.

Packing with strong polystyrene protections inside the carton, to prevent the table from suffering damages during the transport.

### DIMENSIONS

Length	cm. 145
Width	cm. 74
Width with going-through bars	cm. 125
Width with telescopic bars	cm. 110
Height	cm. 88
Weight	Kg. 60
Packing	cm. 135x80x34

## G-500 Evolution

Heavy duty 25mm thick MDF cabinet with melamine coating. Colour: black with silver edges and logo.

9 x 9cm square metal legs coated with antiscratch silver powder-varnish. Levellers enable a perfectly flat playing field on uneven floors.

2,2mm thick high stress resistance steel bars coated with anti-rust chromium-plating.

On request 2,2mm thick telescopic safety bars to ensure the greatest safety.

Steel roller bearings to greatly improve the game speed, while reducing the stress for the players' wrists.

Red and blue players in unbreakable plastic moulded onto the bars.

Fully rotating (360 degrees) or non-rotating goalkeeper (180 degrees) on choice.

Playing field in choice of tempered transparent glossy glass, non-reflective sanded glass or plastic laminate. Green background with white lines to look like a football ground.

Plastic handles with ergonomic grip.

Quick and easy ball recovery through an exit behind each goal.

10 white Standard balls supplied.
